

Appl. No. 10/806,596
Amdt. dated January 17, 2006
Reply to Office action of December 14, 2005

Amendments to the Specification:

On Page 4, please add the following text at Line 10:

In addition, an objective of this invention is the provision of an accessible liftable blender with the capability of mixing products while the receiver is in a low position.

On Page 9, please replace Lines 18 to Line 23, with:

With Figure 4, the position of chopper 134 communicating with container 120 and receiver 122 becomes clear. Chopper 134 drives ~~blade assembly~~ mixing tool 136, which assists with mixing or reacting of ingredients within batch blender 110. Chopper 134 communicates with receiver 122 through chopper aperture 138 in receiver 122 in a standard fashion.
